

Catering Exception Request

It is the intention of the University that the Food Service Provider will prepare and serve food for all events on campus, except food approved through the catering exception process. In order to sell or serve outside food on-campus, a catering exception request must be approved. Requests must be submitted 10 business days in advance. CSUMB is required to meet the regulations set forth in the California Health and Safety Code, Division 104, Part 7, which governs the sale and/or service of food to the public. All food sales and services on-campus must be conducted per this code.

It is recommended that you receive the exemption prior to your order/purchasing food for your event from an outside vendor.

Food and beverage items for spontaneous events can be purchased on campus at one of our retail locations.

If the event includes alcohol, visit the Environmental Health, Safety and Risk Management forms page for the Alcohol Approval Form and for more information <https://csumb.edu/risk/forms>.

For specifics pertaining to the Catering Exception Request Guidelines please visit: <https://csumb.edu/risk/guidelines-procedures/food-safety/>

You may also reach us to discuss the Protocols for Food Service on Campus at the same website address, however you may also reach out to University Affairs, Ceremonies, and Events: <https://csumb.edu/affairs/>

All requests will be reviewed. Responses will be sent to the email provided on the request.

Your answer

I have read and understand the required Protocols for Food Service on Campus. *

This is a one-time request, not a blanket request; You must contact Chartwells, first, and request catering service first prior to submitting your exemption; If your catering notice does not meet the required deadlines consider changing the meeting date; Departments will be held accountable for abusive actions to the Catering Exemption Request Process.

☐ Yes

I have read and understand that all food/beverage items will be presented, served, * and stored at the proper temperatures in accordance with CalCode: Part 7; California Retail Food Code, sections 113871, 113998, 114000, and 114002. That the department will follow all the Guidelines as outlined in the Protocols for Food Service on Campus and the Catering Exemption Request Process. I understand that at anytime, during any unforeseen circumstances EHS-Risk Management may have to rescind this request due to health and safety guidance put forth by either the county, state, federal government or by their own judgment to protect the welfare, health and safety of all participants.
